In the early twentieth century these works became part of the Chino Copper Company's open-pit mining operations-operations that would overtake Santa Rita by 1970. In Santa Rita del Cobre, Huggard and Humble detail these developments with in-depth explanations of mining technology, and describe the effects on and consequences for the workers, the community, and the natural environment. Originally known as El Cobre, the mining-military camp of Santa Rita del Cobre ultimately became the company ...

Santa Rita, New Mexico. Copper mining in the area began late in the Spanish colonial period, but it was not until 1803 that Francisco Manuel Elguea, a Chihuahua banker and businessman, founded the town of Santa Rita. He named it Santa Rita del Cobre (Saint Rita of the Copper), after Saint Rita of Cascia and the existing mine.

Silver City, New Mexico Tour - Mining History Association

The proposed Rosemont Mine sits near the northern crest of the Santa Rita Mountains in southeastern Arizona. The open pit copper mine would have a general mine footprint of roughly 10 square miles. The mine pit, tailings dump, waste rock dump, and buildings alone account for 4,500 acres of National Forest lands subject to the 1872 mining law, which asserts that mining is the most important use of public lands.

Santa Rita Mountains - Earthworks

The Chino mine is the largest porphyry copper deposit in New Mexico. The pit is currently ~1.75 miles across and 1,350 feet deep. The Apaches were the first to notice native copper lying on the ground in a valley northwest of Santa Rita Mountain. The open-pit
