Engineering definition is - the activities or function of an engineer.
How to use engineering in a sentence.

Engineering | Definition of Engineering by Merriam-Webster

When we look at both sentences, we find that there is no object. So it is clear that we need to use an intransitive verb. As the verb "lay" is a transitive verb (needing an object), which means to put somebody or something down in a particular position, its use in the sentence meant is out of the question because it is neither an intransitive verb nor it has the sense needed for the right ...
