Love In The Western World  
Rougemont's study of romantic love as a cultural phenomenon is an engaging and, at its best, compelling account of the origin and development of the western "cult" of romantic love between the sexes. He begins with a lucid reading of the myth of Tristan and Isolde, which exists in several medieval versions, showing how and why the mythic lovers seem to seek out barriers to their love rather than consummate it.

The influence of Tristan and Iseult upon the western world, therefore, is to equate "passionate love" with "a radical condemnation of marriage" (54). True love, it is now supposed, is "profoundly connected with our liking for war" (55). De Rougemont clearly laments the current myth of love as a lie that needs correction.

Romantic love is a Western invention, a near-obsession, supposedly the key to all happiness. For Lewis, the invention of romantic love in the age of the troubadours (the age of the Crusades) was far more momentous for the development of the West, and far more broadly influential than, say, the Protestant Reformation.
