4 Tools for Synchronous Teaching and Learning | Top Hat

The four types of distance learning fall under the categories of either synchronous or asynchronous. Synchronous literally means “at the same time”, while asynchronous means “not at the same time”. Synchronous distance learning involves live communication either through sitting in a classroom, chatting online, or teleconferencing.

Synchronous learning. Synchronous learning often employs classroom style elements, such as group discussions, team activities, and other elements that an instructor supervises. The learning blocks are completed on a schedule, like a regular classroom, and there is plenty of interaction between the students and the instructor.
