Rolls Royce TAY-650-15 — Jetran

The Rolls-Royce Tay 620-15 is used on the first F-100 production aircraft , this because the 650-15 was not available . When it came available the F-100 was delivered with the 650 engine however it was also possible to get it with a 620 engine .The big advantage of the 650 was the better performance at higher altitudes and a better climb rate.The Fokker 70 is only delivered with Rolls Royce ...

ROLLS ROYCE TAY ENGINE. - THE FOKKER AIRCRAFT PAGE

The Fokker 100 is a medium-sized, twin-turbofan jet airliner from Fokker, the largest such aircraft built by the company before its bankruptcy in 1996.The type possessed low operational costs and initially had scant competition in the 100-seat short-range regional jet class, contributing to strong sales upon introduction in the late 1980s.. An increasing number of similar airliners were ...
